Sir:

Further to a telephonic discussion with Examiner Habte on January 24, 2011, Applicants are hereby resubmitting two references, **NPL26** and **NPL27**, submitted in Applicants' First Supplemental Information Disclosure Statement filed on **June 20, 2007** in connection with the above-captioned application. The numbering on this Second Supplemental Information Disclosure Statement is a continuation of the numbering in Applicants' First Supplemental Information Disclosure Statement.

Copies of documents **NPL26** and **NPL27** are resubmitted as documents **NPL31** and **NPL32**, respectively. **NPL31** and **NPL32** are identical to **NPL26** and **NPL27**, submitted on June 20, 2007, respectively. The citation for the references on Form PTO/SB/08B has been modified to include the date of publication of the foreign language document.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the

effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicant has listed publication dates on the attached IDS Forms based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicant reserves the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

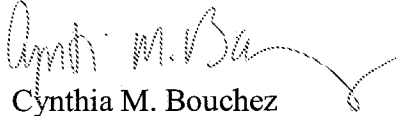

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

As discussed during our telephonic interview, it is expected that Examiner Habte will initial and return a copy of the enclosed IDS Forms, and indicate in the official file wrapper of this patent application that the documents have been considered.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,

STERNE, KESSLER, GOLDSTEIN & FOX P.L.L.C.
